

## HD Voice for the Office@Hand Desktop App Article #8028

**High-Definition Voice** or **HD Voice** allows you to establish calls between supported Office@Hand desk phones and desktop apps with high quality voice audio. With HD Voice, you experience:

- Clear conversation with background noise reduction; avoid miscommunication.
- Provide better call experience within Office@Hand services across all end points.

**NOTE:** HD Voice is available for Office@Hand Premium and Enterprise editions only.

Follow the instructions to enable HD Voice on your Office@Hand Desktop App:

### Step 1:

Log in your Office@Hand account via the Desktop App

### Step 2:

Click **Settings**.

### Step 3:

Go to **Calling > Select Bandwidth** and choose **Use High Bandwidth**.

### Step 4:

enable the **HD Voice if available** option.

### Step 5:

Exit **Settings**.
