Part 1 - Getting Started

Introduction

AT&T Office@Hand is a business phone system that connects employees with one solution. It offers enterprise-grade features, including auto receptionist, multiple extensions, and more.

This guide will help users set up and access the following Office@Hand features:

- Messaging
- Call Log
- Contacts
- Integrations
- Office@Hand for Desktop
- Office@Hand Meetings
- Conferencing
- RingOut
- FaxOut
- Video Calling
- Presence
- Intercom
- User Greetings
- Audio and Hold Music
- Call Handling and Forwarding
- Call Flip
- Hot Desking
- Notifications
- Outbound Caller ID
- Corporate email as user ID
- Gmail (or G Suite) email as user ID

Activate Your Account

Welcome to the Office@Hand business phone system! If this is your first time logging in, you'll need to activate your Office@Hand account in order to start using it.

Welcome Email

After you have been added to the Office@Hand business phone system, you will receive an email welcoming you to your new account. In this email, you will receive your company phone number and extension (if applicable). The email will also indicate if your account is enabled for login using Google login credentials. Please follow the instructions in the email and click (or copy and paste) the activation link.

AT&T Office@Hand

Dear Dave Richards,

Admin has added you as a user to the AT&T Office@Hand business phone system.

- Your company's account number is: **(210) 555-0012**.
- Your extension number is: **103**

You can set up your account online in just a matter of minutes, then log in with your phone number

[Set Up Account](#)

Or copy-and-paste this link into your browser:

[https://service-officeathand.com/login/main.asp?
CDXB3420:D22A0F00EF687AFCED346C27E3EACA849F5C01&activation](https://service-officeathand.com/login/main.asp?CDXB3420:D22A0F00EF687AFCED346C27E3EACA849F5C01&activation)

Thank you for using AT&T Office@Hand.

For technical assistance please call AT&T Advanced Solutions customer care at (866) 563-4703 or [click here](#) for helpful hints, videos and information about how to use the service.

Create Password

Next you'll need to create a password, PIN, and security question and answer for your account. Follow the on-screen prompts. After completing this step, you will be taken to the Express Setup.

For Google-tagged accounts you may skip setting up a Office@Hand password and login to your account using your Google account.

Express Setup

After you activate your account, Office@Hand starts Express Setup, where you configure two easy steps to set up your phone system.

AT&T Office@Hand

Express Setup

My account: (210) 555-0021 Ext. 103

Welcome to AT&T Office@Hand

Complete these two easy steps to quickly set up your phone.

STEP 1

User Info
Review your user profile

STEP 2

Call Handling
Specify how you would like to handle incoming calls to your new number

User Info

First you'll need to confirm your basic info. Here you'll have the opportunity to edit your first and last name, email address, and regional settings.

Review the information in the User Info panel. Enter your first name, last name, and email address, then click **Continue**.

Regional Settings

Fill in the Regional Settings section by providing the **Country**, **Time Format**, and **Time Zone**, and clicking **Continue**.

AT&T OFFICE@HAND SERVICE e911 service operates differently than traditional 911 service. We are required by the FCC to advise you of the circumstances under which 911 may not be available or may be in some way limited by comparison to traditional 911 service. Such circumstances include:

(1) Internet Connection Failure. If the connection to the Internet over which your AT&T OFFICE@HAND SERVICE VoIP service is provided were interrupted, you would not have access to AT&T OFFICE@HAND SERVICE VoIP service during that interruption and therefore would not have access to 911 service during that interruption.

(2) Number Flexibility & Service Portability. Traditional 911 service automatically sends your 911 call to the appropriate local emergency responder, or Public

By clicking "Agree and Continue" below, you confirm that you have read, agree to and understand how e911 service for AT&T OFFICE@HAND SERVICE differs from traditional 911 and that you agree to maintain your registered location based on your current address

Voicemail

In the Voicemail section, you can set up your voicemail greeting. Select **Keep Default** to use the default greeting displayed on the screen. Select **Customize** to record or import your own voicemail greeting.

To record a custom greeting over the phone:

1. Click **Call**. Office@Hand will call you to record your custom greeting over the phone.
2. Follow the prompts.
3. Once done recording, click **Save**.

To import an audio file:

1. Click **Browse**. Select your audio file.
2. Click **Attach**.
3. Once done, click **Save**.

The screenshot shows the 'Call Handling' settings page. At the top, there are two tabs: 'User Info' and 'Call Handling'. Below the tabs, the text reads 'Please select how you would like to handle incoming calls'. There are two main sections:

- 1 Call Forwarding:** Features an icon of a smartphone with arrows. The text says: 'When you receive an incoming call, AT&T Office@Hand will try to locate you on the phones you specify'. At the bottom are 'Skip' and 'Add Phones' buttons.
- 2 Voicemail:** Features an icon of two overlapping circles. The text says: 'If you do not answer the call on any of the phones you specified, the caller will be transferred to your voicemail. Please select your voicemail greeting.' Below this is a play button icon and a sample message: 'Your call has been forwarded to the voicemail for Ron Babia. No one is available to take your call. At the tone, please record your message. When you've finished recording, you may hang up or press the # key for more options.' At the bottom are 'Customize' and 'Keep Default' buttons.

The screenshot shows the 'Voicemail' customization screen. At the top, there are two tabs: 'User Info' and 'Call Handling'. Below the tabs, the text reads 'Please select how you would like to handle incoming calls'. The main content area has a close button (X) in the top left and the title 'Voicemail'. There are two radio buttons: 'Default' (unselected) and 'Custom' (selected). Below the radio buttons are two tabs: 'RECORD OVER THE PHONE' (selected) and 'IMPORT'. The text says: 'AT&T Office@Hand will call you to record your custom greeting over the phone.' Below this is a 'Call me at:' label, a dropdown menu showing '650111111', a 'Call' button, and a 'Save' button at the bottom.

Finishing the Setup

Once everything is set up, click **Finish Setup**.

Download Apps

Learn about the different apps for your mobile device or desktop. You can download the Office@Hand Mobile app, or Office@Hand for Desktop. Click **Next**.

Click **Go to My Account** to access your account.

The screenshot shows the AT&T Office@Hand Express Setup interface. At the top left is the AT&T logo, followed by the text "AT&T Office@Hand Express Setup". On the top right, it says "My account: (210) 555-0021 Ext. 103". The main content area is titled "Use AT&T Office@Hand Anywhere" with the subtitle "Collaborate with coworkers and manage your phone system from any device". Below this, there are two columns of app options. The left column is for the "Free Smartphone App" (Accessibility away from your desk) and includes buttons for "App for iPhone" and "App for Android". The right column is for the "Free Desktop App" (Accessibility on your computer) and includes a button for "Office@Hand for Windows". A "Finish" button is centered below these options. Below the app options is a "Congratulations!" section with the text "You've just completed the initial setup for your AT&T Office@Hand phone." and a rocket icon. It states "Your phone is ready to start making and receiving calls. Try calling your number to verify your setup:" followed by the phone number "(210) 555-1212" in a large font. At the bottom, it says "Visit your full account to access your messages, call log, and configure additional settings." and includes a "Go to My Account" button.

How to Access Your Account

Log in to your online account at <https://service-OfficeAtHand.ATT.com> using your main Office@Hand phone number and password.

Email or Google as User ID

If configured by the admin for your account, users can log in with a unique corporate email address or Google (Gmail or G Suite) account. See [Use a Corporate Email Address to Log In](#) and [Use a Google Account to Log In](#).

Single Sign-on

If Single Sign-on is set up for your account, click Single Sign-on at the bottom of the screen and enter your email address on the following screen, then log in with your corporate credentials.

Account Validation

Account Validation is a security feature that helps protect against fraudulent activity on your account. You will be asked for a security validation code when you log in from a new or unrecognized computer for the first time. Depending on your account settings, you will need to check your phone or email for the security code and enter it in the box before logging in..

Use a Corporate Email Address to Log In

The Email as User ID feature allows users to log in using a unique email address. When users log in to an account, they receive a notification about the feature, and can enable the feature by specifying a unique email address.

This feature applies to accessing your Office@Hand online account, Office@Hand from AT&T Meetings, endpoints such as the Office@Hand Mobile App and Office@Hand for Desktop, integration applications, and the Multiple Account Access portal. This feature can also be configured during Express Setup of your Office@Hand account.

For information on automatically provisioning users from your corporate directory, see [Directory Integration](#).

If not already configured, enable the feature:

1. Log into your account using Office@Hand credentials.
2. Enable the feature as follows:
 - a. In the email popup, select **Enable now**, and click **OK**.
 - b. Or, in **User Settings**, select **Use email to log in**.
3. Verify the uniqueness of the email address.
4. Edit any duplicate email addresses.
5. Click Save and log out.

To log in using email as user ID:

1. In the login screen, click **Email**.
2. Enter the unique Email address and Password that has been associated with your Office@Hand account.

The screenshot shows the 'Sign In' form with the following fields and options:

- Direct, Fax, Main Number
- Extension (Optional) with an information icon
- Password
- Remember me
- Sign In button
- Forgot Password? link
- Or Sign In With section with three buttons: Email (highlighted with an orange callout), Google, and Single Sign-on.

The screenshot shows the 'Sign In' form with the following fields and options:

- Email input field (highlighted with an orange callout)
- Password input field (highlighted with an orange callout)
- Remember me (highlighted with an orange callout)
- Sign In button
- Forgot Password? link
- Or Sign In With section with three buttons: Phone, Google, and Single Sign-on.

Use a Google Account to Log In

The Google login feature allows users native support for logging in using a Google email address and password. This feature requires a unique Google email address (Gmail or G Suite email). The admin configures a Google email address when assigning an extension, and verifies the uniqueness of the email address. By default, users can log in with their Google email address or Office@Hand credentials.

This feature applies to accessing your Office@Hand online account, Office@Hand from AT&T Meetings, endpoints such as the Office@Hand Mobile App and Office@Hand for Desktop, integration applications, and the Multiple Account Access portal. You can configure Google Email addresses during the Express Setup of your Office@Hand account.

If not already configured, set a Google email address.

1. Log in using your Office@Hand credentials.
2. Select **Users**.
3. Select a user. The user settings page is displayed.
4. In the **Email** field, specify a unique email address.
5. Click **Verify email uniqueness**; resolve duplicates.
6. Click **Save** and log out.

To Log In using Google:

1. In the login screen, click **Google**.
2. Enter your unique Gmail **Email** address and **Password**.
3. Edit any duplicate email addresses.
4. Click **Allow** to allow the application access.

Overview

The Overview page is your account home page. It shows your recent voicemail and faxes, recent inbound and outbound calls, Let's take a look at the navigation bar across the top of this page and see how to use it.

Note: The administrator of the phone system will see the tabs at the top for Admin Portal and My Extension. The pages discussed in this section of the guide can be found under My Extension. Users will only see this page and will not have the option to switch to an Admin Portal.

Call Log

The Call Log reports inbound and outbound calls and faxes for the company number and specified extensions. The Call Log is available as a **Simple** view which concisely summarizes the calls, and as a **Detailed** view, which shows additional call record details.

You can filter the call log records by number, time period, call direction or type of call (inbound or outbound). Select your filter criteria, and click **Apply** to refresh the log. In **Delivery Settings**, you can set delivery of the call log to an email address on a daily, weekly, or monthly basis, on a specified day.

In the **Type** column you can see the type of calls:

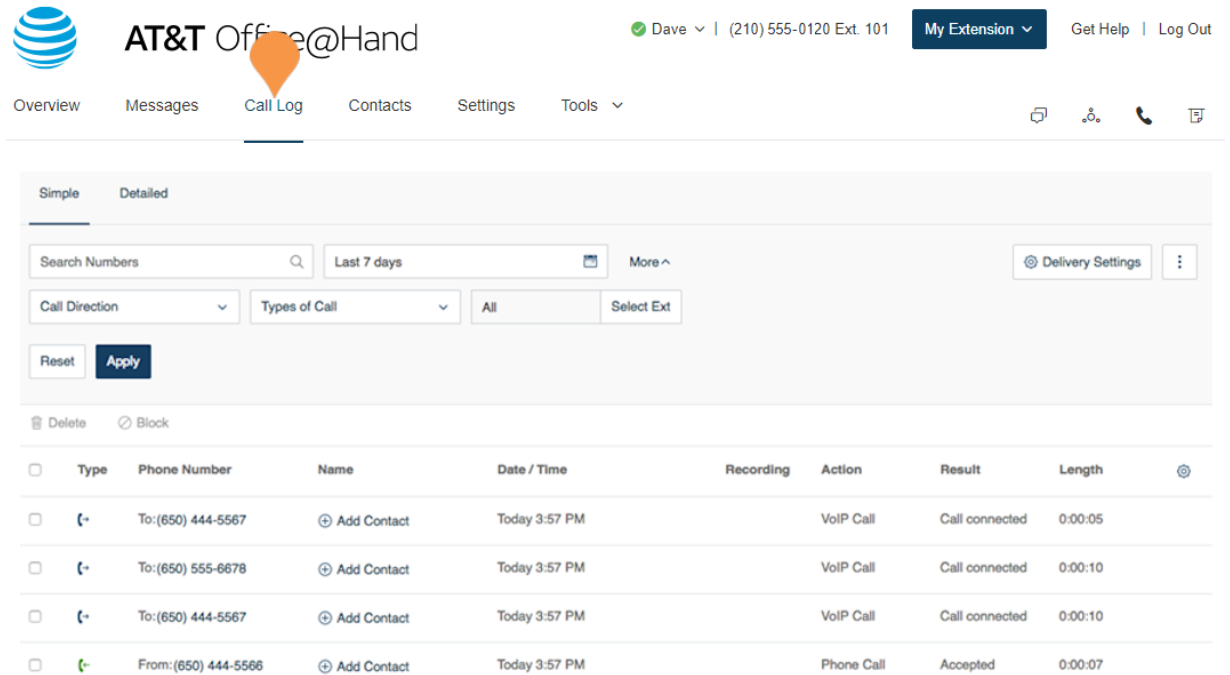

-  Inbound Call
-  Outbound Call
-  Missed Call

If a call has been recorded, you can see an indication in the **Recording** column. To listen to a call recording, select the play icon in the **Recording** column for that call.

If your administrator has enabled it on your account, you will have a **Quality** column in your Call Log. In the Quality column you will see thumbs down icons for calls that were connected. Click the white thumbs down if you were not satisfied with the quality of a call.

Click to mark as a bad call

Tools

This section allows you to obtain the latest tools to enhance your productivity and customize your service to suit the way you work.

Mobile Apps

Download the iPhone, Android, or iPad app to take your Office@Hand service on the go.

Desktop Apps

Use the Office@Hand Desktop application to control your calls from your PC or Mac. Send and receive text messages, faxes, and answer or screen incoming calls, send to voicemail, transfer, disconnect, or monitor voice messages as they are being left and pick up the ones you want to talk to.

Meetings

Office@Hand Meetings® is an online meeting solution. Share documents, websites, and files from cloud storage; annotate, chat, and even record your meetings. Collaborate with up to 50 people (including the host) to share and contribute- anywhere, anytime, from any device. Integrate with Microsoft Outlook.

Archiver

Archiver lets you securely save your messages and recorded calls automatically and easily search the stored data at any time from within your Dropbox or Google Drive account to quickly retrieve the records.

App for Salesforce

Office@Hand for Salesforce enhances your Customer Relationship Management (CRM) experience with integrated business communications. This app is available only for Office@Hand Office Premium and Enterprise customers.

App for Zendesk

Office@Hand for Zendesk provides seamless integration of your Zendesk application and your Office@Hand services to enable improved customer retention, greater agent productivity, and advance business processes. This app is available only for Office@Hand Premium and Enterprise customers.

RingMe

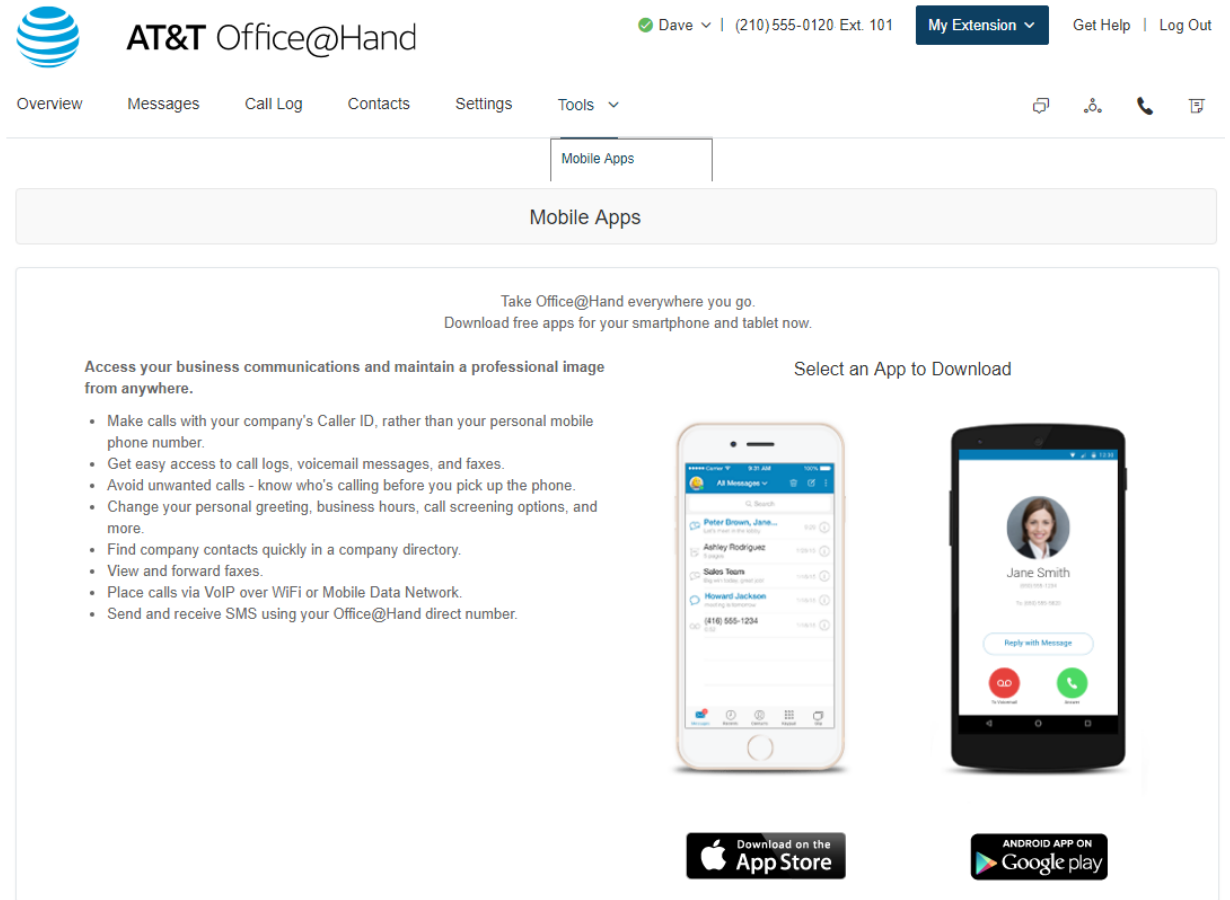

The RingMe button gives your customers the ability to call you by clicking on the button on your web site or email signature.

Mobile App

With the Office@Hand mobile app, you have the convenience and power of your entire business phone solution in the palm of your hand. Easily navigate the interface to take calls, check messages, send business texts, adjust settings, and more - from virtually anywhere.

To download the Office@Hand Mobile app, visit the iTunes App Store for iOS or the Google Play Store for Android.

The screenshot shows the AT&T Office@Hand web interface. At the top, there is a navigation bar with the AT&T logo, the text "AT&T Office@Hand", and user information: "Dave" with a dropdown arrow, "(210)555-0120 Ext. 101", and a "My Extension" dropdown menu. To the right are links for "Get Help" and "Log Out". Below the navigation bar is a menu with "Overview", "Messages", "Call Log", "Contacts", "Settings", and "Tools" (with a dropdown arrow). The "Mobile Apps" menu item is highlighted. The main content area is titled "Mobile Apps" and contains the following text: "Take Office@Hand everywhere you go. Download free apps for your smartphone and tablet now." Below this, there are two columns. The left column is titled "Access your business communications and maintain a professional image from anywhere." and contains a bulleted list of features: "Make calls with your company's Caller ID, rather than your personal mobile phone number.", "Get easy access to call logs, voicemail messages, and faxes.", "Avoid unwanted calls - know who's calling before you pick up the phone.", "Change your personal greeting, business hours, call screening options, and more.", "Find company contacts quickly in a company directory.", "View and forward faxes.", "Place calls via VoIP over WiFi or Mobile Data Network.", and "Send and receive SMS using your Office@Hand direct number." The right column is titled "Select an App to Download" and features two smartphone images. The left image shows an iPhone displaying a message list with contacts like "Peter Brown, Jane...", "Ashley Rodriguez", "Sales Team", and "Howard Jackson". Below the iPhone is a "Download on the App Store" button. The right image shows an Android phone displaying a contact profile for "Jane Smith" with a "Reply with Message" button and call/text options. Below the Android phone is an "ANDROID APP ON Google play" button.

Office@Hand for Desktop

Office@Hand for Desktop turns your PC or Mac computer into an all-in one communication hub completely sync'd to your office network so you can collaborate with your colleagues and clients anywhere you have a broadband connection and a headset. With Office@Hand for Desktop, you're ready to communicate as soon as you log into your computer, no matter where you are.

Office@Hand for Desktop combines the call handling power you expect from your desk phone with the collaboration tools you rely on most-like texting, conferencing, and faxing- so you can stay productive with fewer devices to worry about.

Office@Hand for Desktop is easy to install:

1. From the **Tools** tab, select **Desktop Apps**.
2. Click **Download for Mac** or **Download for PC**. The file will download in your browser.
3. Follow the prompts in the **Office@Hand Setup Wizard**.

The screenshot shows the AT&T Office@Hand web interface. At the top, there's a navigation bar with the AT&T logo, the text "AT&T Office@Hand", and user information: "Dave | (210) 555-0120 Ext. 101". There are also links for "My Extension", "Get Help", and "Log Out". Below the navigation bar, there are tabs for "Overview", "Messages", "Call Log", "Contacts", "Settings", and "Tools". The "Tools" tab is selected, and a dropdown menu is open, showing "Mobile Apps" and "Desktop Apps". A red circle with the number "1" highlights the "Desktop Apps" option. Below the dropdown, there's a section titled "Desktop Apps" with a heading "Download Office@Hand for Desktop". The text below the heading says: "Office@Hand for Desktop turns your PC into your personal business command center. Manage all your business communication from one app - take calls, play voicemails, send text and faxes - anywhere." Below this, there's a "Features Included" section with a list of features:

- Make* and receive calls anywhere Internet access is available.
- Communicate via SMS using your Office@Hand direct number.
- Display your Presence status and view others in your Office@Hand system.
- Send and receive faxes from your PC.
- Screen voicemail messages as they are being left, interrupt and answer the ones you want to take.

 A footnote says: "* Outbound calling requires option VoIP phone service". Below the features, there's a "System Requirements" section with two columns: "PC" and "Mac".

PC	Mac
<ul style="list-style-type: none"> • Windows 7 and above • Minimum 2 GHz (32-bit or 64-bit) processor • Minimum of 4 GB of memory (8 GB recommended) • 400 MB of free hard drive space • Required minimum screen resolution is 1,024 x 768 	<ul style="list-style-type: none"> • OS X El Capitan 10.11 or above • Intel processor • Minimum of 4 GB of memory (8 GB recommended) • 400 MB of free hard drive space • Required minimum screen resolution is 1,024 x 768

 To the right of the text, there's an image of a computer monitor displaying the Office@Hand interface, with a mobile phone overlay showing an active call with "Brenda Campbell" and a "00:10" timer. Below the image, there's a red circle with the number "2" pointing to two buttons: "Download for Mac" and "Download for PC".

Office@Hand Meetings®

Office@Hand Meetings is a downloadable app for video conferencing and web sharing of the desktops and application displays of conference participants. The app is available in desktop and mobile versions. Office@Hand Office Enterprise users can have up to 200 participants per meeting, Premium users can have up to 100 participants per meeting, and Standard and all other Office users can have up to 4 participants per meeting. The number of participants includes the host.

Participants are invited to join a meeting by email or SMS; they don't have to be Office@Hand customers but can download and run the Office@Hand Meetings app for free and join your meetings without needing to create an account or log in.

To download the Office@Hand Meetings app for your desktop:

1. From the **Tools** tab, select **Meetings**.
2. Select the **Meetings for Desktop** tab.
3. Click **Download for Mac** or **Download for PC**. The file will download in your browser.
4. Follow the prompts in the **Office@Hand Meetings Setup Wizard**.

To download the Office@Hand Meetings mobile app:

1. From the **Tools** tab, select **Meetings**.
2. Select the **Meetings Mobile App** tab.
3. Click **Download on the App Store** or **Get it on Google Play**.
4. Follow the instructions for installation through the iTunes App Store for iOS or Google Play Store for Android to download the Office@Hand Meetings app for your mobile devices.

The screenshot shows the AT&T Office@Hand web interface. At the top, there's a navigation bar with 'Overview', 'Messages', 'Call Log', 'Contacts', 'Settings', and 'Tools'. The 'Tools' dropdown menu is open, showing 'Mobile Apps', 'Desktop Apps', and 'Meetings'. A red circle with the number '1' highlights the 'Meetings' option. Below the navigation bar, there are tabs for 'Meetings for Desktop', 'Meetings Outlook Plugin', and 'Meetings Mobile App'. A red circle with the number '2' highlights the 'Downloads' button in the left sidebar. The main content area displays information about the Office@Hand Meetings app, including features like video conferencing, screen sharing, and integrated chat. There are buttons for 'Download for Mac' and 'Download for PC'.

Archiver

Archiver makes archiving important communications data simple and convenient through the seamless integration of SFTP, Dropbox, or Google Drive cloud storage with your Office@Hand service.

With Archiver, you can securely save your messages and recorded calls automatically and easily search the stored data at any time from within your account to quickly retrieve the records you want.

Configure Archiver

1. From the **Admin Portal**, select the **Tools** tab.
2. Click **Archiver** and log in to the tool with your Office@Hand credentials.
3. The Accounts tab displays the connection status of your accounts. Click **Connect** and enter the credentials to connect Office@Hand to your Dropbox, Google Drive, or SFTP account.
4. Click **Sync Options**.
5. When connected to an account, you can enable or disable data backup from Office@Hand to the account by selecting **Enable Backup**.

Archiver will run the job on an hourly basis and archive to Dropbox, Google Drive, or SFTP all of the extensions' call recordings generated within the hour before last Archiver job run.

6. Select the types of **Data to backup**. By default, Call Recordings are backed up for admins and users. Users can select for their own extensions whether to backup Call Recordings, Voice Mails, SMS and/or Fax.

The screenshot displays the AT&T Office@Hand Admin Portal interface. At the top, the user is logged in as 'Dave' with phone number '(210) 555-0120 Ext. 101'. The 'Tools' menu is open, showing 'Archiver' as the selected option. The main content area is divided into two sections. The first section, 'Accounts', shows two accounts: 'Dropbox' and 'SFTP', both marked as 'Not connected' with 'CONNECT' buttons. The second section, 'Sync Options', shows 'Data to backup' settings. Under 'Data to backup', 'Call Recordings' is checked. An 'Enable Backup' toggle is visible, currently turned off.

Office@Hand for Salesforce™*

Office@Hand for Salesforce enhances your CRM experience with integrated business communications. With Office@Hand for Salesforce you can place calls from within Salesforce by simply clicking on contact or account records. Your incoming calls trigger a pop-up window with the caller's account information. And you can attach call Notes to specific contact records. Your Office@Hand Administrator will need to configure this application for your account.

RingMe

RingMe is a click-to-call feature designed to help drive traffic from your website or email to your telephone sales team and thereby increase lead opportunities. Whether you are using a local or a toll-free number, you can provide your visitors a way to call you with a simple click of the mouse.

1. From the **Tools** tab, select **RingMe**.
2. Next to **Callers will be routed to**, select your preference from the drop-down menu.
3. Under **RingMe Style**, select whether you'd like a hyperlink or a button. If choosing a button, click > **Change Button Style** to see other color options.
4. Under **Security**, check the boxes if you'd like to **Use SSL mode** and **Require callers to enter security image confirmation code**.
5. Under **Generate Code**, choose the type of code you'd like from the drop-down menu.
6. Click **Copy Code** to copy your code to your computer's clipboard. Then paste the code wherever you'd like to add your RingMe button.

The screenshot shows the AT&T Office@Hand user interface. The 'Tools' menu is open, and 'RingMe' is selected. The main content area is titled 'RingMe' and contains the following sections:

- RingMe Configuration:**
 - 2 Caller will be routed to:** Radio buttons for 'Auto-Receptionist' (selected) and 'Extension'.
 - 3 RingMe Style:** A dropdown menu set to 'Hyperlink'.
 - 4 Security:** Checkboxes for 'Use SSL mode' (checked) and 'Require caller to enter security image confirmation code' (unchecked).
- Preview and Test:** A section with a 'Click button/link to test RingMe.' button and a 'RingMe' button.
- 5 Generate Code:** A section stating 'The following code has been generated based on your above configuration.' with radio buttons for 'With JavaScript' (selected), 'Without JavaScript', and 'URL (Hyperlink) only'.
- 6 Copy Code:** A button to copy the generated code.

The generated code is shown in a text box:

```
<div class="tools-ringme-ringmeLink" data-test-automation-id="ringmeLink" onclick="var wind = window; var winop = wind.open; winop("https://service-officeathand.uat.ringcentral.com/ringme/?uc=86E12F6ED06F7099C1FC14A9E4637FB73240400182653006,0,1,0&s=no&v=2&s_3420", "Callback_RingMe", "resizable=no,width=500,height=635"); return false;">RingMe</div>
```

Do Not Disturb

In the upper right of every page of your online account is a small colored icon next to your name. This icon displays your Do Not Disturb status. Click the icon to toggle between statuses:

- **Take all calls** - you are available to take all incoming calls.
- **Do not accept call queue calls** - you do not accept from a call queue; those calls are sent to your voicemail.
- **Do not accept any calls** - you do not accept any calls. All callers are sent to voicemail.

The screenshot displays the AT&T Office@Hand user interface. At the top, the AT&T logo and 'AT&T Office@Hand' are visible. The user's name 'Dave' is shown with a dropdown menu containing three options: 'Take all calls', 'Do not accept call queue calls', and 'Do not accept any calls'. Below the navigation bar, there are sections for 'Recent Messages' and 'Recent Calls'. The 'Recent Messages' table lists incoming messages from various contacts and numbers. The 'Recent Calls' table lists outgoing and incoming calls with details like phone numbers, names, dates, times, and lengths. On the right side, there are 'Settings Shortcuts' (Admin and User tabs) with options like 'Manage Users', 'Company Call Handling & Greetings', 'Manage Phones & Devices', and 'Manage Groups'. Below that is an 'Announcements' section with a message about HD Video Meetings and a 'Resources' section with a 'Feedback' link.

Audio Conference

Office@Hand customers can setup, host, and join conference calls anytime, anywhere. Click the Conference icon in the upper right corner of your online account to get started.

Each conference call can include up to 1000 attendees, enabling you to hold large meetings and broadcasts.

Each customer receives a unique conference bridge number, and each user on the phone system gets his or her own host and participant access code so that you and your team can hold independent conferences whenever you want.

You also have the option to add the international dial-in number in the invitation. Check the "I have international participants" option and select the needed countries in the list.

Launch the Conferencing Application

1. Click the **Conference** icon.
2. A pop-up will appear with conference numbers and settings.
 - a. View **Dial-in numbers**.
 - b. View **Host** and **Participant** codes.
 - c. If you have international participants, check the box next to **I have international participants**. Select international dial-in numbers at the bottom of the pop-up.
 - d. Check the box next to **Enable join before host to allow participants** to start a conference call without a host.
 - e. Click **Invite with Email** to open an email with pre-populated conference details - simply enter participant emails and send.
 - f. Click **Conference Commands** to view Conference Commands*.
3. Click **Close**.

*See Conference Commands on the next page.

Conference Commands

For the Conferencing feature, the host and participants have the same conference bridge number to dial into, but their call control depends on the access codes that they will use.

The Host has the full call control and can access the conference commands in the table to the right.

Participants, on the other hand, have limited control of the conference commands.

The commands are displayed with the conferencing dial-in information.

Preventing Music-On-Hold

On an demand parameter can be configured to prevent users from playing music-on-hold. When you request support to enable this parameter for your account, and a user with music on hold enabled joins a conference bridge, the client is prevented from playing music-on-hold during an explicit or implicit hold (such as answering an incoming call). This feature allows other participants on the bridge to continue without disruption.

Conference Commands x	
Use your touch-tone dialpad keys to mute or block participants, record the call, and more.

* 9	Record your conference Press once to START recording Press again to STOP recording
Done	

RingOut

RingOut enables one-touch calling from any phone or Internet-enabled computer, allowing you to make calls using your business caller ID from any location, such as a hotel room. The Office@Hand system will call your phone first, then dial out to the number you'd like to call to get you connected. The RingOut icon is located in the upper right of every online account page.

1. Click the **RingOut** icon in the upper right corner.
2. A pop-up dialer will appear.
3. Dial a number or use your keyboard to type a number into the text field. You can also choose from among recent calls, or from your contact list.
4. Select the **From** number you'd like to show as your caller ID. You also have the option to choose Custom phone number from the drop-down menu and enter the desired number in the text field below the drop-down menu.
5. Once you have entered From and To numbers, the **Call** button will turn green.
6. Check the box next to **Prompt me to press 1 before connecting the call** if you'd like the system to confirm that you would like to make the call before you are connected. When the system calls you, you will hear "Please press 1 to connect." This protects you in case you mistyped your own number, or if your voicemail picks up too quickly.
7. Click the **Call** icon. The system first calls you. When you answer (and press 1 as instructed if you've selected this option), it then calls the other number and connects you.

Recent Calls

Type	Phone Number	Date/Time	Length
☉ (-)	To:	Today 1:50 PM	00:00:00
☉ (-)	To:	Today 1:49 PM	00:00:00

FaxOut

From any page on your Office@Hand online account, click the FaxOut icon located in the upper right corner. Fill in the form with recipient's fax number and cover page information, and attach or scan a document, which will automatically be converted into a fax.

A wide variety of standard document types, including word processing and spreadsheet and PDF documents, are recognized by FaxOut. You can also send files from Dropbox, Box or Google Drive with just a few clicks.

1. Click the **FaxOut icon** in the upper right corner.
2. Enter up to 50 recipients and add a cover page message.
3. **Attach files** from Dropbox, Box, Google Drive or your computer and authorize Office@Hand to access your files (you have to do this only once).
4. Click **Send Now**.

The screenshot shows the Office@Hand interface with the 'Send a Fax' modal window open. The top navigation bar includes 'Dave', '(210) 555-0120 Ext. 101', 'My Extension', 'Get Help', and 'Log Out'. The 'Send a Fax' window has the following sections:

- To:** A text input field with a plus icon, containing the recipient name and number: "Jonny Test" (+1234567895). Callout 2 points to this field.
- Cover Page:** A checkbox labeled 'Enable'.
- Attach Files:** A dropdown menu showing 'Google Drive' and a 'Browse' button. Callout 3 points to the dropdown and callout 4 points to the 'Browse' button.
- Files:** A list of attached files, including '1234567.rtf' (32.2K) with a 'Delete' link.
- Schedule:** A checkbox labeled 'Enable' and a 'Send on' field set to '10/17/2017 11:00 PM'. Callout 5 points to the 'Enable' checkbox and callout 6 points to the 'Schedule' button.

The 'Select Contacts' modal window is also shown, with a search bar and a table of contacts. Callout 2a points to the search bar and callout 2b points to the 'Insert' button at the bottom right.

Placing Video Calls

Your admin can enable video on internal point-to-point calls in your Office@Hand account. Supported devices include the Polycom VVX 601/600 and 501/500. Some devices support detachable cameras for video calling.

You can control video-enabled phones through a softkey. The softkey displays “Audio Mode” in the idle state when the video feature is enabled on your Office@Hand service. You can use the softkey to toggle between ‘Audio Mode’ (to make an audio-only call) and ‘Video Mode’.

Hot Desking

Hot desking enables you to log in to a shared phone that adopts your phone settings. Hot desking allows employees who travel from different offices to share the same common phone and desk while keeping their own extension profiles and voicemail access.

Hot desking is only available for extensions with digital lines. Host phones will not support any inbound or outbound calling without a guest user logged in (except emergency calls).

Log in to a common phone

1. Press the **Login** soft key (or dial *90) on a common phone.
2. At the prompt, enter the extension number and pin (used at set up).
3. You are logged in to the common phone.

Log out from a common phone

1. Press the **Logout** soft key on the phone (or dial *90) to log out.
2. You are logged out from the common phone.

Part 2 - User Settings

User Settings

As a User, you may be able to change your contact info, voicemail greeting, call handling, user hours, password, and more, but not the extension number that was assigned to you by the system administrator.

Your administrator may use the Roles and Permissions feature to control which settings users can access or edit. A role is a set of permissions that is assigned to a user. If some settings described here are not available to you, your administrator may not have granted you a role with permissions that can access or edit those settings.

User Details

1. From the **Settings** tab, select your name and extension at the top of the list of settings on the left.
2. Under **User Details**, make changes on the **General** tab.
 - a. **First Name**
 - b. **Last Name**
 - c. **Record User Name**: click the play icon to hear the current recording or click **Edit**. Select **Record my name** and record the name by phone, computer, or import. Or select **AT&T Office@Hand text-to-speech** to create a phonetic spelling of your name or extension so the system can pronounce it correctly.
 - d. **Job Title**: Edit your job title.
 - e. **Department**: Add your department title.
 - f. **Contact Phone**
 - g. **Mobile Phone**
 - h. **Email**: address for Office@Hand communications.
 - i. **Use email to log in**: Enables your admin to enable you to log into your Office@Hand account using your corporate email address and password.
 - j. **Password**: Set and reset password, PIN, and Security Question.

The screenshot shows the AT&T Office@Hand user settings interface. At the top, there is a navigation bar with the AT&T logo, the text "AT&T Office@Hand", and user information "Dave | (210) 555-0120 Ext. 101". Below the navigation bar are tabs for "Overview", "Messages", "Call Log", "Contacts", "Settings", and "Tools". The "Settings" tab is active, showing a list of users on the left and a "User Details" form on the right. The user list shows "Dave Richards Ext. 101" with an orange callout "1" pointing to it, and "Outbound Calls/Faxes" below it. The "User Details" form has an orange callout "2" pointing to the "User Details" header. The form has two tabs: "General" (selected) and "Settings & Permissions". The "General" tab contains fields for First Name (Dave), Last Name (Richards), Job Title, Contact Phone ((650) 555-1212), Email (dave.richards@example.com), and a checkbox for "Use email to log in". On the right side of the form, there are fields for Record User Name (Dave Richards), Department, Mobile Phone, and Password (Change Password). At the bottom right of the form are "Cancel" and "Save" buttons.

3. Select and change the information you want to change on the **Settings & Permissions** tab.
 - a. **Regional Setting:** Time zone, time format, country code.
 - b. **User Hours:** Set your working hours.
 - c. **Roles:** Lists the role assigned to you by your admin that controls what you can do within the system. A role is a collection of permissions that could be based on a job function.
 - d. **User Groups:** Specifies any user groups where you are a member. The user group manager can modify your settings and view your call log.
 - e. **Template:** Click to **Apply** an existing template (group configurations) for call handling.
 - f. **Schedule Meetings for Me:** Grant permission to other users in Office@Hand Meetings to schedule a meeting on your behalf.

The screenshot displays the AT&T Office@Hand user settings page for Dave Richards (Ext. 101). The interface includes a navigation bar with options like Overview, Messages, Call Log, Contacts, Settings, and Tools. The main content area is titled 'User Details' and features a notification badge with the number '3'. The 'Settings & Permissions' tab is active, showing various configuration options:

- Regional Settings:** GMT-08:00 (Edit)
- Roles:** Super Admin (Info icon)
- Template:** Apply
- User Hours:** 24 hours (Edit)
- User Groups:** Call Center Operations (Edit)
- Schedule Meetings for Me:** 0 users selected (Edit)

Schedule Meetings for Me

Schedule Meetings for Me simplifies the process of scheduling Office@Hand meetings without the need to log into different accounts to host meetings for others. For example, a manager can assign his/her executive assistant to schedule meetings for them.

1. From the **Settings** tab, select your name and extension at the top of the list of settings on the left.
2. Click **Schedule Meetings for Me**.
3. Select the boxes of the users you want to grant permission to schedule meetings for you.
4. Click **Save**.

When scheduling a meeting in Office@Hand Meetings, the host can select your name from the **Schedule for** field in the Schedule a Meeting window. See the Office@Hand Meetings Guide for information on scheduling meetings.

The screenshot shows the AT&T Office@Hand user interface. At the top, the user is logged in as 'Dave | (210) 555-0120 Ext. 101'. The 'Settings' tab is selected, and the 'User Details' page is open. On the left sidebar, 'Dave Richards Ext. 101' is highlighted with a callout '1'. The 'Settings & Permissions' section is active, showing 'Regional Settings' (GMT-08:00), 'User Hours' (24 hours), 'Roles' (Super Admin), and 'Schedule Meetings for Me' (0 users selected). A callout '2' points to the 'Settings' tab, and a callout '3' points to the 'Edit' button in the 'Schedule Meetings for Me' section.

The 'Schedule Meetings for Me' dialog box is open, showing a search bar and a dropdown menu set to 'All Departments'. Below is a table of users with checkboxes for selection:

Name	Ext.	Department
<input type="checkbox"/> Timothy Renollet	212	
<input type="checkbox"/> Jamshed Nurmatov	101	
<input checked="" type="checkbox"/> Ann Lee	102	
<input type="checkbox"/> John Doe	103	
<input type="checkbox"/> Derek Hanson	104	
<input type="checkbox"/> John Doe	213	
<input checked="" type="checkbox"/> Jane Smith	215	

At the bottom of the dialog, there is a 'Total: 7' indicator, a 'Show: 25' dropdown, and 'Cancel' and 'Save' buttons. A callout '4' points to the dialog title, and a callout '5' points to the 'Save' button.

Use Text-to-Speech Name

1. From the **Settings** tab, select your name and extension at the top of the list of settings on the left.
2. Click the **User Details** section.
3. Click **Edit** under **Record User Name**.
4. A pop-up will appear with options for your recorded name.
5. Select the button next to **Office@Hand text-to-speech name**.
6. Enter your name in the text field.
7. Click **Save**.

The screenshot displays the AT&T Office@Hand user settings interface. At the top, the user is identified as 'Dave' with extension '(210) 555-0120 Ext. 101'. The 'Settings' tab is active, and the 'User Details' section is expanded. On the left sidebar, a user card for 'Dave Richards Ext. 101' is highlighted with a blue background and a callout '1'. The 'User Details' section has two tabs: 'General' and 'Settings & Permissions'. The 'Record User Name' section is visible, showing a recording progress bar and an 'Edit' button with callout '3'. Below this, a 'Record User Name' pop-up window is open, showing a dropdown menu for 'Record by' with 'AT&T Office@Hand text-to-speech' selected (callout '4') and a text field for 'Greeting Name' containing 'Dave Richards' (callout '5'). The 'Save' button in the pop-up is highlighted with a callout '6'. At the bottom of the main settings area, there are 'Cancel' and 'Save' buttons.

Set a Custom Name Recording

1. From the **Settings** tab, select your name and extension at the top of the list of settings on the left.
2. Select **User Details**.
3. Click **Edit** under **Record User Name**. A pop-up will appear with options for your recorded name.
4. Select **Record my name** from the menu.
5. Select how you'd like to set your custom recording:

a. Record Over the Phone

Next to **Call me at**, choose a phone number from the drop-down menu if you have saved numbers or type a phone number in the text field. Click the **Call Now** button, and Office@Hand will call you to record your message.

b. Record Using Computer Microphone

Click **Allow** if Office@Hand asks to record through your computer. The microphone test and record settings will appear. When ready, click the red **Record** button to record your company greeting through your computer microphone. Stop the recording and listen to the playback.

c. Import

Browse for a WAV or MP3 file you want to use. Click **Attach**. Click the play button to listen to your greeting.

6. Click **Save**.

The screenshot displays the AT&T Office@Hand user settings page. At the top, the user is identified as 'Dave | (210) 555-0120 Ext. 101'. The 'Settings' tab is active, and the 'User Details' section is expanded. A callout '1' points to the user's name 'Dave Richards Ext. 101' in the left sidebar. Callout '2' points to the 'User Details' header. Callout '3' points to the 'Edit' button next to the 'Record User Name' field. Callout '4' points to the 'Record my name' option in the 'Record by' dropdown of a 'Record User Name' pop-up. Callout '5a.' points to the 'Phone' tab in the pop-up. Callout '5b.' points to the 'Computer Microphone' tab in the pop-up. Callout '5c.' points to the 'Importing' tab in the pop-up. The 'Record User Name' pop-up includes a 'Record by' dropdown, 'Phone', 'Computer Microphone', and 'Importing' tabs, and an 'Upload .WAV or .MP3 file' section with a 'Browse' button. The 'Computer Microphone' tab shows a 'Microphone Test and Record' section with a volume slider and a 'Record' button. The 'Phone' tab shows a 'Call me at' field with the number '650-555-1212' and a 'Call Now' button. The 'Importing' tab shows a 'Record by' dropdown and a 'Save' button.

Phones & Numbers

In the Phones & Numbers section, you can view your phones and numbers, edit your presence and intercom settings as well as view your conference numbers and invite people to a conference call via email.

Phone Details

1. From the **Settings** tab, select **Phones & Numbers**.
2. Click the **Phones** tab.
3. Click **Edit** to see the phone details of a phone. You can view your **Device**, **Serial Number**, **Assignee Type**, and **Status**, edit your phone **name**, your **Default area code**, your **Bandwidth Settings** and enable **HD Voice***, and edit your **Emergency Address**.
4. Click **Save**.

The screenshot shows the AT&T Office@Hand user settings interface. At the top, the user is identified as Dave Richards, Ext. 101, with a 'My Extension' dropdown and 'Get Help' and 'Log Out' links. The navigation menu includes Overview, Messages, Call Log, Contacts, Settings (highlighted), and Tools. A sidebar on the left shows 'Dave Richards Ext. 101' and 'Outbound Calls/Faxes'. The main content area is titled 'User Details' and 'Phones & Numbers'. Under 'Phones & Numbers', there are tabs for 'Numbers' and 'Phones'. A '+ Add Phone' button, a 'Presence' button, and an 'Intercom' button are visible. A table lists phone details:

Phone Nickname	Phone Type	Number	
Existing Phone	Existing Phone	(205) 538-0301	Edit
Polycom VVX-311 Gigabit Ethernet Phone	Polycom VVX311	(650) 682-0533	Edit

The detailed view for the 'Polycom VVX311' phone is shown below. It includes a 'Back' button, a phone icon, and the following information:

- Device: Polycom VVX311
- Serial Number: N/A
- Assigned Type: User Phone
- Status: Order in Progress
- Name: Polycom VVX-311 Gigabit Ethernet Phone
- Default Area Code: 650
- Bandwidth Settings: High
- Data Usage: High
- Use HD Voice if possible
- Emergency Address: Edit Address

At the bottom right, there are 'Cancel' and 'Save' buttons.

*Available for Premium and Enterprise users only.

Set Your Presence

Presence-capable phones have status indicator lights that let you see who is available, busy, or on hold. You can turn on Presence and decide who gets monitored and how you want to handle the calls.

1. From the **Settings** tab, select **Phones & Numbers**.
2. Click the **Phones** tab.
3. Click **Presence**. A pop-up will appear with a list of users who are currently able to see your **Presence**.
4. On the **Appearance** tab, check the box next to **Ring my phone when any user I am monitoring rings** if you'd like to use this feature.
5. Check the box next to **Enable me to pick up a monitored line on hold** if you'd like to use this feature.
6. Click **Select a User**.
7. Select a user to add from the list to your Presence-capable phone.
8. Click **Done**.
9. Click **Save**.

Note: If you use Office@Hand for Desktop, the list of users under Appearance will automatically sync with the HUD list on your desktop. Any changes you make to the HUD list on your desktop will also automatically sync with the Appearance list in your online account.

The screenshot shows the AT&T Office@Hand user interface. At the top, the user is identified as 'Dave' with extension '(210) 555-0120 Ext. 101'. The 'Settings' tab is active, and the 'Phones & Numbers' section is expanded. The 'Phones' sub-tab is selected, and the 'Presence' button is highlighted with callout 3. A 'Presence' pop-up window is open, showing the 'Appearance' tab. Callout 4 points to the checkbox 'Ring my phone when any user I am monitoring rings', and callout 5 points to 'Enable me to pick up a monitored line on hold'. Below these are search and 'Preview on my phones' options. A table lists monitored lines with columns for Line, Name, and Ext. Callout 6 points to the 'Select a User' button. A 'Select a User' modal is open, showing a search bar, a department dropdown set to 'All Departments', and a list of users: Bob Miller (104, Quality Assurance), Charlie Lee (103, Customer Service), and Debbie Smith (105). Callout 7 points to the user list, callout 8 to the 'Done' button, and callout 9 to the 'Save' button in the main pop-up.

10. Click the **Permissions** tab.
11. Next to **Allow other users to see my presence**, select the button next to **On** or **Off**.
12. Select the users who you'd like to allow to see your **Presence**.
13. Click **Save**.

The screenshot shows the 'Presence' settings window with the 'Permissions' tab selected. Callout 10 points to the 'Permissions' tab. Callout 11 points to the 'Allow other users to see my Presence status' section, which has radio buttons for 'On' and 'Off'. Callout 12 points to a table of users with checkboxes for selection. Callout 13 points to the 'Save' button at the bottom right.

<input type="checkbox"/>	Name	Ext.	Department
<input type="checkbox"/>	Bob Miller	104	Quality Assurance
<input type="checkbox"/>	Charlie Lee	103	Customer Service
<input type="checkbox"/>	Debbie Smith	105	
<input type="checkbox"/>	Sandra Brown	102	

Intercom

Intercom allows hands-free peer-to-peer conversations between users on desk phones and the Office@Hand for Desktop application. With Intercom, you can call another extension in your company and that phone will automatically answer the call in speakerphone mode. This feature is useful for announcing parked calls, notifying of visitors, and engaging in hands-free communications with colleagues.

Most Office@Hand desk phones have Intercom softkeys. Just press the Intercom softkey and dial an extension. The extension phone beeps to notify the user of an incoming intercom call, and the user's speakerphone is automatically activated.

Call routing and forwarding is supported, so if users are on intercom calls on their desk phones, incoming regular phone calls can forward automatically another device. Just set your forwarding rules to send calls to your mobile phone or the Office@Hand for Desktop application if your desk phone is busy.

The Polycom 6000 conference phone does not have softkeys; use the touch tone command *85 to initiate an Intercom session. The Office@Hand for Desktop application cannot make, but can receive, Intercom calls. The Office@Hand Mobile Apps cannot make an Intercom call; incoming Intercom calls convert into regular inbound calls.

The screenshot shows the AT&T Office@Hand user settings page for Dave Richards (Ext. 101). The 'Settings' tab is active, and the 'Phones & Numbers' section is expanded. Three callouts are present: 1 points to the 'Phones & Numbers' section, 2 points to the 'Phones' sub-tab, and 3 points to the 'Intercom' softkey. Below the main interface are two 'Intercom' configuration pop-up windows.

Enable Intercom Calls

To enable Intercom calls:

1. From the **Settings** tab, select **Phones & Numbers**.
2. Click the **Phones** tab.
3. Click **Intercom**.
4. On the **Phones** tab, enable intercom calling by choosing a phone to accept intercom calls. Click **Disabled** (if Intercom is currently disabled) or the current Intercom-enabled phone to change the settings.
5. Select the button next to the phone you'd like to accept intercom calls.
6. Click **Save**.
7. On the **Users** tab, select users who you'd like to be able to make intercom calls to you.
8. Click **Save**.

The screenshot displays the AT&T Office@Hand user settings interface. The main navigation bar includes Overview, Messages, Call Log, Contacts, Settings, and Tools. The user profile for Dave Richards (Ext. 101) is shown at the top. The 'Settings' tab is active, and the 'Phones & Numbers' section is expanded to the 'Phones' sub-tab. A callout box highlights the 'Intercom' button in the top right corner of the settings area.

Two modal windows are shown in the foreground, illustrating the steps for enabling intercom calls:

- Modal 1 (Left):** Titled 'Intercom', it shows the 'Phone' tab selected. The 'Phone permitted to accept intercom calls' toggle is set to 'On'. A search bar is present, and a table lists available phones. One phone, 'Polycom VVX-311 Gigabit Ethernet Phone', is selected. A 'Save' button is highlighted.
- Modal 2 (Right):** Also titled 'Intercom', it shows the 'Users' tab selected. The 'Phone permitted to accept intercom calls' toggle is set to 'On'. A search bar and a department dropdown menu are visible. A table lists users with columns for Name, Ext., and Department. Several users are listed, including Bob Miller, Charlie Lee, Debbie Smith, Sandra Brown, and Shared Line 1. A 'Save' button is highlighted.

Screening, Greeting, & Hold Music

In this section, you can set your preferences for your different greetings, hold music, and blocked calls.

Set a User Greeting

Your Office@Hand system comes with a default personal greeting such as "Thank you for calling (user name)." You can easily change this greeting to your own custom greeting. Follow the steps on this page to record a custom greeting over the phone or import a prerecorded greeting from your computer.

- Under the **Settings** tab, select **Screening, Greeting & Hold Music**.
- Click **Edit** under **User Greeting**. A pop-up will appear with the current greeting.
- Choose your preferred type of greeting.
 - Default:** Select **Default** from the menu
 - Custom:** Select **Custom** from the menu and select how you'd like to set your custom recording:
 - Record Over the Phone:** next to **Call me at**, choose a phone number from the drop-down menu if you have saved numbers or type a phone number in the text field. Click **Call Now** and Office@Hand will call you to record your message.
 - Record Using Computer Microphone:** click **Allow** if prompted to record through your computer. The Microphone Test and Record settings will appear. When ready, click the red Record button to record your company greeting through your computer microphone. Stop the recording and listen to the playback.
 - Import** Browse for a WAV or MP3 file you want to use. Click **Attach**. Click the play button to listen to your greeting.
- Click **Done**.
- Click **Save**.

The screenshot shows the AT&T Office@Hand user interface. At the top, there's a navigation bar with the AT&T logo, the user name 'Dave Richards Ext. 101', and various settings tabs: Overview, Messages, Call Log, Contacts, Settings (highlighted), and Tools. Below the navigation bar, there's a sidebar with 'Dave Richards Ext. 101' and 'Outbound Calls/Faxes'. The main content area is titled 'Screening, Greeting & Hold Music' and has three sub-sections: 'User Hours', 'After Hours', and 'Blocked Calls'. The 'User Greeting' section is expanded, showing 'Enable' checked, 'Custom' selected, and a play button with a volume control. A callout box '1' points to the 'Screening, Greeting & Hold Music' section. A callout box '2' points to the 'Edit' button. A callout box '3a' points to the 'Set Greeting' dropdown menu. Two pop-up windows are shown: one for 'Record Over the Phone' (callout box '4') and one for 'Record Using Computer Microphone' (callout box '5').

Set up Call Screening

Turn on this option when you want callers to announce their name before continuing to connect the call. This option lets you identify the caller so you can pick up the call immediately.

1. Under the **Settings** tab, click **Screening, Greeting & Hold Music**.
2. Under **Call Screening**, click **Enable**.
3. Click **Edit** to set call screening options. Under **Ask callers to say their names before connecting**, select the button next to your preferred condition.
4. Click **Done**.
5. Click **Save**.

The screenshot displays the AT&T Office@Hand user settings page. The top navigation bar includes 'Overview', 'Messages', 'Call Log', 'Contacts', 'Settings', and 'Tools'. The user profile 'Dave Richards Ext. 101' is shown in the top right. The sidebar on the left has 'Outbound Calls/Faxes' selected. The main content area is titled 'Screening, Greeting & Hold Music' and contains three sections: 'User Greeting', 'Connecting Message', and 'Hold Music'. Each section has an 'Enable' checkbox and an 'Edit' button. A 'Call Screening' section is also present, with an 'Enable' checkbox and an 'Edit' button. A modal dialog titled 'Set up Call Screening' is open, showing 'Connecting Options' with radio buttons for 'If Caller ID not present', 'If caller not in contact list', and 'Always'. The 'Done' button in the modal is highlighted with a blue circle.

Connecting Message

Set the recorded message you want callers to hear to let them know the call will now be transferred to your line.

1. From the **Settings** tab, select **Screening, Greeting & Hold Music**.
2. Under **Connecting Message**, click **Enable**.
3. Click **Edit**. A pop-up appears with the current connecting message.

Choose your preferred type of message.

a.Default: Select the button next to **Default**.

b.Custom: Select the button next to **Custom** and select how you'd like to set your custom recording:

- **Record Over the Phone**

Next to Call me at, choose a phone number from the drop-down menu if you have saved numbers or type a phone number in the text field. Click the **Call Now** button, and Office@Hand will call you to record your message.

- **Record Using Computer Microphone**

Click **Allow** if prompted to record through your computer. The Microphone Test and Record settings will appear. When ready, click the red **Record** button to record your company greeting through your computer microphone. Stop the recording and listen to the playback.

- **Import** Browse for a WAV or MP3 file you want to use. Click **Attach**. Click the play button to listen to your greeting.

4. Click **Done**.

5. Click **Save**.

Note: Repeat this process, selecting the After Hours tab (if displayed), to set up a Connecting Message for after business hours.

The screenshot displays the AT&T Office@Hand user settings interface. The top navigation bar includes 'Overview', 'Messages', 'Call Log', 'Contacts', 'Settings', and 'Tools'. The 'Settings' tab is active, and the 'Screening, Greeting & Hold Music' section is expanded. The 'Connecting Message' settings are visible, with 'Enable' checked and 'Custom' selected. Two pop-up windows, labeled '3a' and '3b', show the 'Connecting Message' dialog. '3a' shows the 'Default' greeting and 'English (U.S.)' language. '3b' shows the 'Custom' greeting, 'Computer Microphone' selected, and a 'Call Now' button. Numbered callouts 1 through 5 indicate the steps: 1. Select 'Screening, Greeting & Hold Music'; 2. Click 'Enable' for 'Connecting Message'; 3. Click 'Edit' for 'Connecting Message'; 3a. Select 'Default' for 'Set Greeting'; 3b. Select 'Custom' for 'Set Greeting' and 'Computer Microphone' for recording; 4. Click 'Done' in the dialog; 5. Click 'Save' at the bottom right.

Audio While Connecting

Set the music you'd like callers to hear in the while waiting to be connected. Please Note that the "Audio while connecting" setting is applied on a rule basis, the "Hold music" setting is applied for all calls.

1. Under the **Settings** tab, select **Screening, Greeting & Hold Music**.
2. Under **Audio While Connecting**, click **Enable**.
3. Click **Edit**. A pop-up appears with the current audio.
4. Select the radio button next to your preferred choice of audio:
 - a. **Ring Tones**.
 - b. **Music**: Select audio from the drop-down menu.
 - c. **Custom**: Upload a WAV or MP3 file.

Press the **Play** button to listen to your greeting, press **Record** to re-record your custom greeting or select a different type of audio.

5. Click **Done**.
6. Click **Save**.

The screenshot shows the AT&T Office@Hand user settings interface. The user is Dave Richards (Ext. 101). The 'Settings' tab is selected, and the 'Screening, Greeting & Hold Music' section is expanded. The 'Audio While Connecting' setting is shown as 'Enabled' with 'Acoustic' music selected. A 'Save' button is visible at the bottom right.

Annotations 1-6 illustrate the steps to configure this feature:

- 1:** Points to the 'Screening, Greeting & Hold Music' section in the settings menu.
- 2:** Points to the 'Enable' checkbox for 'Audio While Connecting'.
- 3:** Points to the 'Edit' button for the 'Audio While Connecting' setting.
- 4a:** Points to the 'Set Audio' dropdown menu in the 'Audio While Connecting' pop-up, showing 'Ring Tones' selected.
- 4b:** Points to the 'Set Audio' dropdown menu in the 'Audio While Connecting' pop-up, showing 'Music' selected.
- 4c:** Points to the 'Set Audio' dropdown menu in the 'Audio While Connecting' pop-up, showing 'Custom' selected.
- 5:** Points to the 'Done' button in the 'Audio While Connecting' pop-up.
- 6:** Points to the 'Save' button at the bottom right of the settings page.

Set Hold Music

Set the music you'd like callers to hear while on hold. The hold music will be applied to all calls.

1. Under the **Settings** tab, select **Screening, Greeting & Hold Music**.
2. Under **Hold Music**, click **Enable**.
3. Click **Edit**. A pop-up appears with the current music.
4. Select the radio button next to your preferred choice of music:
 - a. **Ring Tones**.
 - b. **Music**: Select your choice of music from the drop-down menu. You have standard music options as well as options that are optimized for mobile devices at the bottom of the list.
 - c. **Custom**: Upload a WAV or MP3 file.

Press the **Play** button to listen to your greeting, press **Record** to re-record your custom greeting or select a different type of audio.
5. Click **Done**.
6. Click **Save**.

The screenshot displays the AT&T Office@Hand user interface for Dave Richards (Ext. 101). The navigation bar includes Overview, Messages, Call Log, Contacts, Settings, and Tools. The left sidebar shows user details and 'Outbound Calls/Faxes'. The main content area is under the 'Settings' tab, specifically 'Screening, Greeting & Hold Music'. Callout 1 points to the 'Screening, Greeting & Hold Music' section. Callout 2 points to the 'Hold Music' section, which is currently disabled. Callout 3 points to the 'Edit' button for the Hold Music section. Three 'Hold Music' pop-up windows are shown on the right, illustrating the selection process: 4a shows 'Ring Tones' selected; 4b shows 'Music' selected with 'Acoustic' chosen; 4c shows 'Custom' selected with a play button and a red record button. The main settings page has a 'Save' button at the bottom right.

Blocked Calls

Choose specific phone numbers and fax numbers that you'd like to block and prevent from calling or faxing your number. You can also choose what message they will hear when they attempt to call.

1. Under the **Settings** tab, select **Screening, Greeting & Hold Music**.
2. Click the **Blocked Calls** tab for call blocking options. If you are the administrator, you will see a message notifying you that calls blocked for this extension will apply to any calls to the company as well as your own extension.
3. Under **Block Option** select whether you'd like to block specific calls and faxes or all calls.
4. **Only Block these numbers or area codes:**
 - a. Enter **phone numbers** (and names) of specific numbers you'd like to block.
 - b. Click **Block**.
 - c. Click **Callers will hear** to set the message you'd like them to hear.
5. Under **Callers will hear** you can click **Edit** to set the message you'd like these callers to hear.
6. **Block calls with no caller ID:**
 - a. Select **Faxes, Call and Faxes**, or **None**.
 - b. Check the box next to **Enable block calls from pay phones** if you'd like this option.
7. **Block calls from pay phones:**
 - a. Select **Faxes, Call and Faxes**, or **None**.
 - b. Edit **Callers will hear** to set the message you'd like these callers to hear, then click **Save**.
8. Click **Save**.

Call Handling & Forwarding

Call Forwarding

As a User, you can set up different call forwarding rules for your extension(s). Add up to 10 forwarding numbers for each extension assigned to you, and set calls to ring at these numbers sequentially or simultaneously.

You can access the in-product help and tool tips to find more information, including knowledgebase articles, on configuring call handling and forwarding.

1. From the **Settings** tab, select **Call Handling & Forwarding**.
2. Set **Incoming calls forward in this order** as follows:
 - a. **Sequentially**: Use the up and down arrows next to each phone in the Move column to set the order in which your phones will ring.
 - b. **Simultaneously**: All phones listed will ring at the same time.
3. **Create Ring Group**: Use this feature to group numbers and allow them to ring at the same time. Check the box beside the numbers you want to select and click **Create Ring Group**. Click **Ungroup** to ungroup the numbers.
4. **Add Call Forwarding Phone**: click this button to add another phone number up to 10 forwarding numbers for each phone extension.
5. **Forward to Other's Phones**: Click the kebab button beside **Add Call Forwarding Phone** to open this option and select from a list of other user's numbers.
6. Click **Save**.

The screenshot shows the AT&T Office@Hand user interface. The user is Dave Richards, Ext. 101. The 'Settings' tab is selected, and the 'Call Handling & Forwarding' section is expanded. The 'Incoming Calls Forward in this Order' dropdown is set to 'Sequentially'. A table lists forwarding numbers with columns for Order, Active status, Ring For duration, Name, and Number. A '+ Add Call Forwarding Phone' button is visible, along with a 'Save' button at the bottom right.

	Order	Active	Ring For	Name	Number
	1	<input type="checkbox"/>	0 Rings / 0 Secs	Desktop App & Smart Phone	N/A
⋮	2	<input checked="" type="checkbox"/>	4 Rings / 20 Secs	Mobile	+63 (947) 5195122
⋮	3	<input checked="" type="checkbox"/>	4 Rings / 20 Secs	Bob Miller VVX-311	(205) 555-0122

⋮	6	<input checked="" type="checkbox"/>	4 Rings / 20 Secs	Home	+63 (555) 5190122

Incoming Call Handling

You can choose settings in Incoming Call Information so that when you receive a call, either at your office or forwarded to another of your phones, you will hear a recorded prompt that announces the name of the extension the caller dialed. For example, it may say, "John, you have a call." Or "Sales, you have a call."

This feature helps users who are members of more than one department-or who use phones that are both business and personal-answer the call appropriately.

1. From the **Settings** tab, click **Call Handling & Forwarding**.
2. Click the **Settings** tab.
3. Click **Edit** under **Incoming Call Information**.
4. On **Display Number**, you can select Incoming Caller ID or Called Number under **Incoming Number Displayed to Me**. This setting is useful if you are using a non-Office@Hand phone as a forwarding number, so you would know how to identify an Office@Hand call.
 - a. **Incoming Caller ID**: displays the phone number of the person calling.
 - b. **Called Number**: displays the phone number the person dialed. If you use your business phone for personal use as well, it allows you to identify business calls and answer them appropriately.

The screenshot shows the AT&T Office@Hand user settings page. The user is Dave Richards, Ext. 101. The 'Settings' tab is selected, and the 'Call Handling & Forwarding' section is expanded. The 'Incoming Call Information' settings are visible, with an 'Edit' button highlighted. A modal window titled 'Incoming Call Information' is open, showing options for 'Display Number' and 'Play Announcement'. The 'Incoming Number Displayed to Me' dropdown is set to 'Incoming Caller ID'. There are four orange callout boxes with numbers 1, 2, 3, and 4 pointing to the 'Settings' tab, the 'Settings' sub-tab, the 'Edit' button, and the 'Display Number' section respectively.

5. Click **Play Announcement**, to configure how you want the announcement to play before connecting.
6. **Direct Calls**: this setting allows you to hear an announcement when your extension or phone is called directly. This is helpful for identifying how you should answer the phone, especially if you use the phone for both business and personal use. You can select the following options under this setting:
 - a. **For non-Office@Hand phones only**: Plays the announcement when forwarding a call to your home or mobile phone (to help you distinguish between personal and business calls) but not when forwarding to your Office@Hand phone.
 - b. **Always**: All calls will be announced before being forwarded to any of your phones.
 - a. **Never**: All calls will be connected without an announcement (unless they are from blocked numbers)
7. **Call Queue Calls**: This setting applies if you are a member of a call queue. This is helpful for identifying how you should answer the phone, especially if you are a member of multiple call queues.
 - a. **For non-Office@Hand phones only**: Plays the announcement when forwarding a call to your home or mobile phone (to help you distinguish between personal and business calls) but not when forwarding to your Office@Hand phone. You will still be prompted to press 1 to accept department (Call Queue) calls on you non-Office@Hand phones.
 - b. **Always**: All calls will be announced before being forwarded to any of your phones.

The screenshot shows the AT&T Office@Hand user settings page. The user is Dave Richards, Ext. 101. The 'Settings' tab is selected, and the 'Incoming Call Information' section is expanded. A modal window titled 'Incoming Call Information' is open, showing the following settings:

- Display Number**: Play Announcement
- Play announcement before connecting**: (checked)
- Direct Calls**: For non-Office@Hand phones only
- Call Queue Calls**: For non-Office@Hand phones only
- Include mailbox name in announcement**:
- Require my pin to answer**:

At the bottom of the modal are 'Cancel' and 'Save' buttons. Numbered callouts (5-10) are placed over the interface to highlight these specific elements.

8. Check **Include mailbox name in announcement** if you'd like the mailbox name to be included in the announcement. If this option is unchecked and you get a department (Call Queue) call, the prompt will say "Queue Call, to accept this call, press 1". If you are supposed to accept calls from the Sales and Technical Departments for example, checking this option will let you know if the call you are getting is for Sales or Technical Department.
9. Check **Require my pin to answer**: this option requires the Office@HandPIN be entered before accepting a call. This is a helpful security feature if you do not want other people to accept your calls, such as when you are at home or at another location.
10. Click **Save**.

Call Flip

Office@Hand Call Flip lets you transfer conversations from one device to another quickly and easily. Flip a call you are on to your mobile phone on your way out of the office. Or flip a mobile call to your home phone once you've finished your commute.

Manage Your Call Flip Numbers

1. From the **Settings** tab, select the **Call Handling & Forwarding**.
2. Click **Call Flip**.
3. A pop-up will appear with a list of numbers/ devices assigned to that user with a Flip number beside each.
4. Click the arrows to move a device up or down to change its assigned number. You may skip or leave any number unassigned.
5. Click **Save**.

To Use Call Flip

When you are on a phone call, press the asterisk key (*) and a number corresponding to the device to which it is assigned. The call is transferred immediately to that device. For example, if you have the number 2 assigned to your home phone, clicking *2 while you are on a call will instantly transfer the call to your home phone.

Messages & Notifications

Messages

In the messages section, decide whether or not you'd like to take messages, set your voicemail greeting, and choose how you'd like to be notified for different interactions.

Set a Voicemail Greeting

1. From the **Settings** tab, select **Messages & Notifications**.
 2. Under **Take Messages**, click the button next to **Yes**.
 3. Under **Voicemail Greeting** click **Edit**.
 4. A pop-up will appear with the current Voicemail Greeting. Choose your preferred type of greeting.
 - a. **Default** – Select the button next to **Default**.
 - b. **Custom** – Select the button next to **Custom** and select how you'd like to set your custom recording:
 - **Record Over the Phone**
Next to **Call me at**, choose a phone number from the drop-down menu if you have saved numbers or type a phone number in the text field. Click the **Call Now** button, and Office@Hand will call you to record your message.
 - **Record Using Computer Microphone**
Click **Allow** if Office@Hand asks to record through your computer. The Microphone Test and Record settings will appear. When ready, click the red **Record** button to record your company greeting through your computer microphone. Stop the recording and listen to the playback.
 - **Import**
Browse for a WAV or MP3 file you want to use. Click **Attach**. Click the play button to listen to your greeting.
 5. Click **Save**.
- By default, you receive your own voicemail messages. To configure another user/extension to receive your voicemail messages (for example, when you are out of the office), click **Message Recipient** and select the user who should receive the voicemail messages.

The screenshot shows the AT&T Office@Hand user interface. The top navigation bar includes 'Overview', 'Messages', 'Call Log', 'Contacts', 'Settings', and 'Tools'. The 'Settings' tab is active. On the left, a sidebar shows 'Dave Richards Ext. 101' and 'Outbound Calls/Faxes'. The main content area is divided into sections: 'User Details', 'Phones & Numbers', 'Screening, Greeting & Hold Music', 'Call Handling & Forwarding', and 'Messages & Notifications'. The 'Messages & Notifications' section is expanded, showing 'User Hours', 'After Hours', and 'Settings' sub-sections. The 'Take Messages' section is checked 'Enable'. Below it, the 'Voicemail Greeting' section shows 'Default' as the current greeting. An 'Edit' button is highlighted with a red callout '3'. Two pop-up windows are overlaid on the settings page. The first pop-up, labeled '4b', is for a 'Custom' greeting. It has a dropdown menu set to 'Custom', radio buttons for 'Phone', 'Computer Microphone', and 'Importing', a text field for 'Call me at' containing '(650) 555-1212', and a 'Call Now' button. The second pop-up, labeled '4a', is for a 'Default' greeting. It has a dropdown menu set to 'Default', a 'View In' dropdown set to 'English (U.S.)', and a text area containing a sample voicemail message: "Your call has been forwarded to the voicemail for John Smith. No one is available to take your call. At the tone, please record your message. When you've finished recording, you may hang up or press the # key for more options." Both pop-ups have 'Cancel' and 'Done' buttons. A red callout '5' points to the 'Save' button in the bottom right corner of the settings page.

Notifications

Set your settings for email alerts or text messages when you receive a voicemail message, fax, missed call or for the status of their fax transmission results.

1. From the **Settings** tab, select **Messages & Notifications**.
2. Click the **Settings** tab.
3. Click **Edit** under **Notifications**. A pop-up will appear with options for email or text-message notifications to a recipient of your choice when voicemail messages or faxes are received, or calls missed.
4. Set your notification settings by checking the boxes and filling in email and phone numbers.
 - a. Click **Advanced Notification Options** to see more detailed notification settings.
 - b. Set your **Advanced Notification Options**.
 - c. Click **Back to Basic Notification Settings**.
5. Click **Save**.

The screenshot shows the AT&T Office@Hand user settings interface. The user is Dave Richards, Ext. 101. The 'Settings' tab is selected in the top navigation bar. The 'Messages & Notifications' section is expanded, and the 'Settings' sub-tab is active. A pop-up window titled 'Notifications' is open, showing a table of notification settings for various message types. The table has columns for 'By Email' and 'By SMS', and a 'Customize Notifications' link for each row. The 'Advanced Settings' dropdown is visible in the top right of the pop-up. The 'Save' button is highlighted in blue.

Outbound Caller ID

This option allows a user to display or block the caller ID of their phone numbers during outbound calls. As a default, your outbound caller ID is not blocked. Follow the steps below to change it.

- From the **Settings** tab, select **Outbound Calls/Faxes** at the top of the list of settings on the left.
- Select the **Caller ID** tab.
- You have the option to choose different numbers to display:
 - By Phone:** Choose a number to display for your softphone, mobile phone, or desk phone.
 - By Feature:** Choose a number to display for RingOut from Web, RingMe, Call Flip, Fax Number, and Additional Softphone.
- Click **Edit** next to a phone number to select a phone number you want to display as your called ID number for that phone or feature type. Click **Done**.
- Check the box next to **Display my extension number for internal calls** if you want to display your extension as your Caller ID when making internal calls. All Office@Hand and IP phones will see the extension. Calls forwarded to external phones, like a mobile phone, will still show your complete direct phone number.
- Click **Save**.

The screenshot displays the AT&T Office@Hand user interface. At the top, the user is identified as Dave Richards, Ext. 101. The navigation menu includes Overview, Messages, Call Log, Contacts, Settings, and Tools. The 'Settings' tab is selected, and the 'Outbound Calls/Faxes' option is highlighted in the left sidebar (1). The 'Caller ID' tab is active (2). The main content area shows settings for outgoing calls, with a heading: "Decide what phone number you want to display as your Caller ID number for outgoing calls." The settings are organized into two main sections: "By Phone" and "By Feature".

By Phone: This section lists the "Existing Phone" as "Polycom VVX-311 Gigabit Ethernet Phone" with the number "(850) 882-0533 - Phone Line". An "Edit" button is visible next to it (3).

By Feature: This section lists several features with their respective numbers and "Edit" buttons (4):

- RingOut from Web:** (866) 200-8330 - Main Number
- Call Flip:** (866) 200-8330 - Main Number
- Additional Desktop App:** (866) 200-8330 - Main Number
- RingMe (Outgoing to Caller):** (866) 200-8330 - Main Number
- Fax Number:** (866) 200-8330 - Main Number
- Common Phone:** (866) 200-8330 - Main Number

Below these sections is the "Alternate Caller ID" section, which is currently "Not-specified" and has an "Edit" button. The "Internal calls" section at the bottom has a checked checkbox for "Display my extension number for internal calls" (5). At the bottom right, there are "Cancel" and "Save" buttons (6).

Outbound Fax Settings

Set your outbound fax settings using these instructions.

Changing Fax Cover Sheet

1. From the **Settings** tab, select **Outbound Calls/Faxes** at the top of the list of settings on the left.
2. Select the **Fax Settings** tab.
3. Edit your **Cover page info**. Enter your **Company name, Address, City, State/Province, Zip/Postal Code**, and **Country**.
4. Under **Cover Page** click **Select**.
5. Select and preview the **Default Cover Page**. A default cover sheet is attached to each fax you send through Office@Hand. The variable information on the cover page will be filled in during the fax-sending process.
6. Click **Done**.
7. Click **Save**.

The screenshot shows the AT&T Office@Hand user interface. At the top, the user is identified as 'Dave' with phone number '(210) 555-0120 Ext. 101' and 'My Extension' is set to '101'. The navigation menu includes Overview, Messages, Call Log, Contacts, Settings, and Tools. The 'Settings' tab is active, and the 'Outbound Calls/Faxes' section is selected on the left sidebar. The 'Fax Settings' section is expanded, showing 'Cover Page Info' with fields for Company (BinCentral / DINS), Country (United States), Apartment / Suite # (e.g. App. 25), and State/Province (Select State/Province). A 'Cover Page' modal is open, showing a preview of a fax cover sheet with fields for To, From, Date, and Phone. The modal has 'Cancel' and 'Done' buttons. A 'Select' button is visible in the main settings area, and a 'Save' button is at the bottom right of the page.

Adding Emails That Can Send Faxes

When a user sends a fax via Office@Hand, the system checks the email address of the sender, and sends the fax if it is on the approved list. Emails might include alternate company accounts or personal accounts. You can have up to five approved email addresses.

1. From the **Settings** tab, select **Outbound Calls/Faxes** at the top of the list of settings on the left.
2. Select the **Fax Settings** tab.
3. Under **Omit cover page when email subject line is blank**, select the button next to **On** or **Off** depending on your preference. If this option is selected, when you send a fax via email with a subject line, the cover page will be used. If you send it without a subject line, a cover page will not be used.
4. Enter the email address you wish to add.
5. Click **Add** (repeat for up to 25 additional addresses).
6. Click **Save**.

The screenshot displays the AT&T Office@Hand user interface. At the top, the user is identified as Dave Richards (Ext. 101) with a 'My Extension' dropdown and 'Get Help' and 'Log Out' links. The navigation menu includes Overview, Messages, Call Log, Contacts, Settings, and Tools. The left sidebar shows 'Outbound Calls/Faxes' selected, indicated by callout 1. The main content area is the 'Fax Settings' configuration page, indicated by callout 2. It features a 'Cover Page Info' section with fields for Company (RingCentral / DINS), Street Address (e.g. 120 1st St SW), City (e.g. Alabaster), Zip Code (e.g. 35007), Country (United States), Apartment / Suite # (e.g. App. 25), and State/Province (Select State/Province). There is also a 'Fax Number' field (888) 200-8330 - Main Number with an 'Edit' button, and a 'Cover Page' section with a 'Contempo' option and a 'Select' button. The 'Faxes Sent via Email' section includes a toggle for 'Omit cover page when email subject is blank' (callout 3) and an 'Email Addresses' section with an input field containing 'user@mycompany.com' (callout 4) and an 'Add' button (callout 5). At the bottom right, there are 'Cancel' and 'Save' buttons (callout 6).

Faxing via Email

Send faxes by emailing them as attachments from any email address you have added to the "Faxes Sent via Email" menu described previously.

1. Enter the recipient's 10-digit fax number@rcfax.com in the To: field. For example, to send a document to the fax number 1-650-555-6567, you would use this email address: 6505556567@rcfax.com.
2. Enter a subject in your email to use as your fax subject. Depending on your settings for Faxes Sent via Email, adding a subject may

determine whether or not a cover page is sent with your fax. See instructions for Adding Emails that Can Send Faxes for more information.

3. Attach the document you wish to fax.
4. Type your message in the body of the email.
5. Click **Send**.

The screenshot shows an email composition interface. On the left is a 'Send' button with a paper plane icon. To its right are four input fields: 'To...' containing '6505556567@rcfax.com', 'Cc...' which is empty, 'Subject:' containing 'Office@Hand Update', and 'Attached:' containing a document icon and 'Update.docx (12 KB)'. Below these fields is a large text area with the message 'Check out the new update!'.
