

AT&T Office@Hand iOS App

Get to know the Office@Hand mobile app for iOS with this handy quick reference guide to walk you through everything it has to offer.

Message

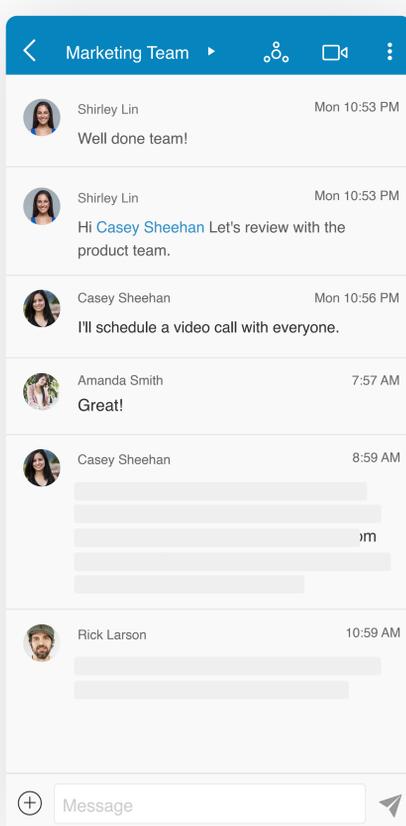

Find all of your messages in one place, sorted by most recent and organized by your direct messages, teams that you have been invited to or joined, and any contact or team that you have marked as a favorite.

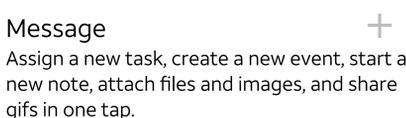

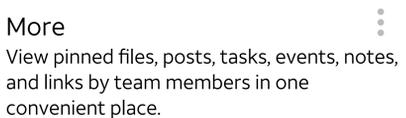

Filter

Filter messages to only show unread, drafts, messages that failed to send, @mentions, bookmarks, or "Me conversation," your own personal space where you can create a task, make a note, or store a photo.

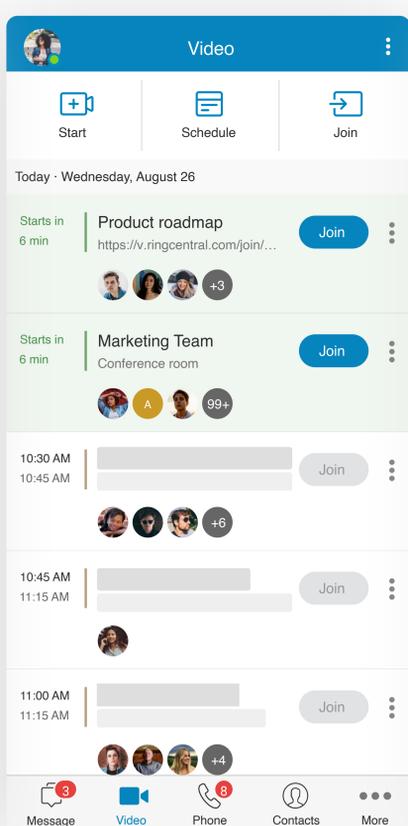

Conversation pane

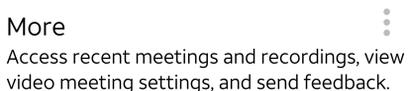

Tap into any direct message or team thread to bring up your conversation history. The top panel lets you view a contact's profile, start a call, and start a video chat.

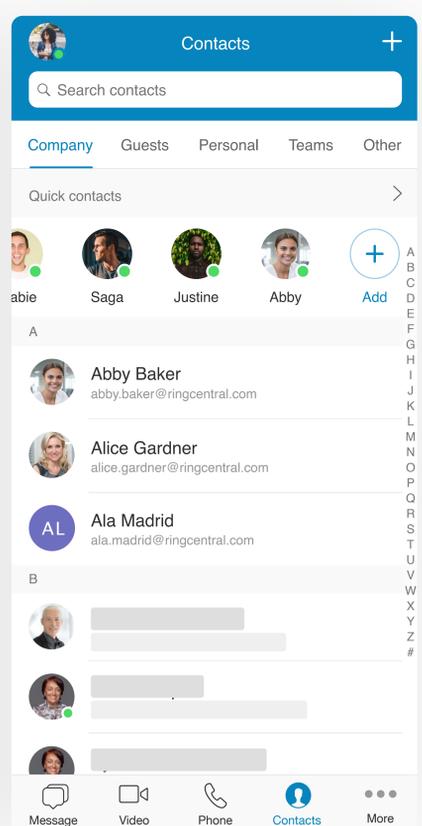

Video

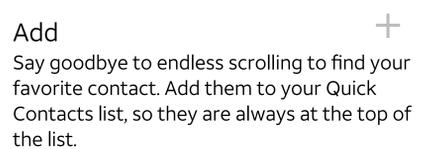

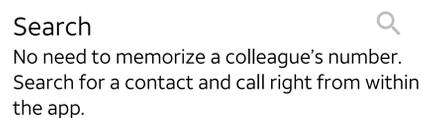

Start, schedule, or join HD video meetings easily from your phone, perfect for when you're on the go.

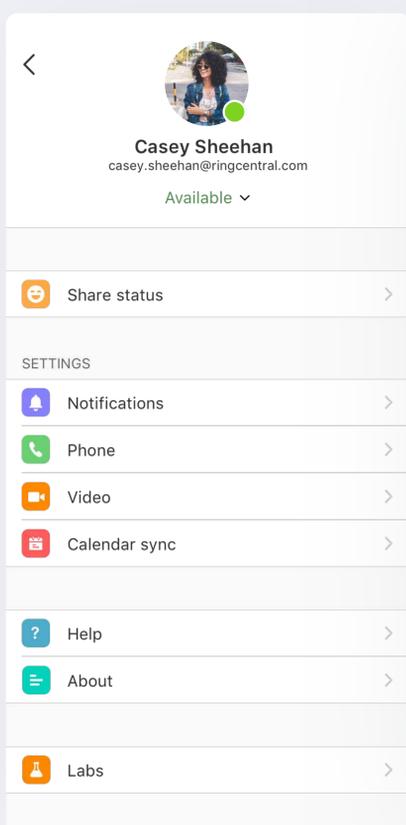

Contacts

Your contacts are conveniently broken into five groups: company colleagues, guests invited to the app, personal contacts, teams, or other.

Menu/profile picture

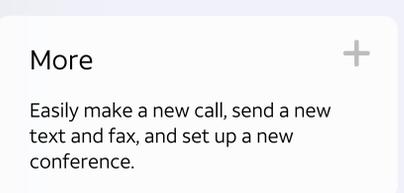

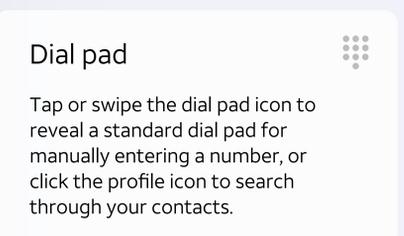

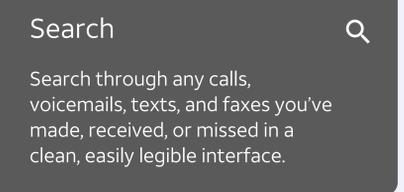

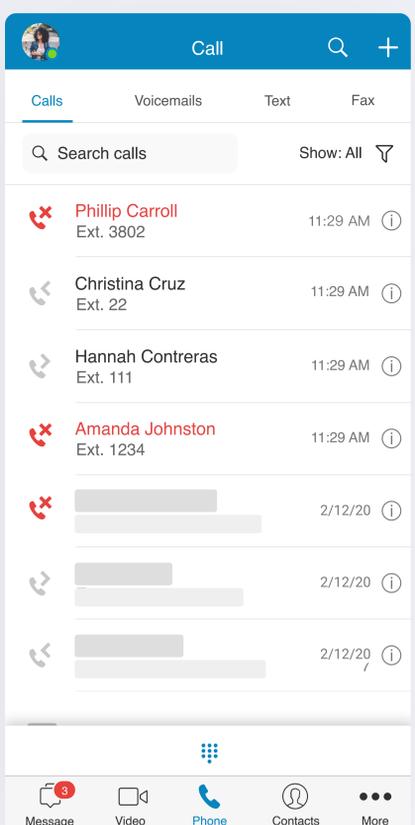

Status

Let your team know if you're available or busy, or set your own custom message.

Settings

Access all the usual settings like notifications and permissions, and find resources for any questions you may have or if you'd like to reach out to support.

Phone
